Carlsbad Welcomes New Ortho Surgeons

Whether it's care for fractures, strains and sprains, a chronic knee problem or the need for a new hip, it is now easier to connect with a local orthopedic specialist. New orthopedic surgeons Gene Prendergast, D.O. and Donald Malone, M.D. have moved to Carlsbad, bringing qualifications, experience and a commitment to helping patients get back to active lives quickly. Both surgeons concentrate on offering a multi-disciplinary approach to orthopedic care and their minimally invasive procedures enable patients to recover more easily and with less pain.

"We're excited to welcome these talented physicians to our Medical Staff and the community," says Chad Campbell, chief executive officer at Carlsbad Medical Center. "Having two new orthopedic surgeons in Carlsbad will keep many patients from having to go out of town for orthopedic care."

Board certified in orthopedic surgery, Dr. Prendergast has 27 years' experience in general orthopedics. With 28 years' experience, Dr. Malone offers comprehensive ortho services that include sports injuries, hand, elbow and shoulder surgeries, and minimally invasive procedures.

Dr. Malone and Dr. Prendergast are accepting new patients at Pecos Valley Orthopedics; same and next-day appointments are often available. Call 575-628-0312 for an appointment. Both physicians are members of the Medical Staff at Carlsbad Medical Center.
